

Dear Parents,

We understand that we hold events on campus that are exciting, educational and just plain cool. We also understand that you are proud of your child's part in the experience often want to share it with your friends.

However, please keep in mind that not everyone is comfortable having images of their children anywhere on the internet. We request that you DO NOT post pictures of any school event, play, field trip etc... anywhere online (including FACEBOOK, Instagram, Picassa, etc.), if it includes children other than your own child(ren).

This may seem like a small matter but it can truly become a large issue. It may seem harmless, but again, when you post a picture of someone else's child you are taking away that parent's choice as to whether or not their child's picture is online.

We live in a different era of technology, not so innocent than when most of us were children. Please help us in this matter by respecting each individual's privacy.
